FINALLY SOMETHING NEW AND ORIGINAL!
FOR YOUR TEAMBUILDING EVENTS, MEETINGS, CLIENT CAMPAIGNS...

Treasure hunt guided by a tablet !

The idea is to transform places (a city, park, hotel, museum,) into a 'Snakes & Ladders' game using tablets. Each team performs a number of challenges, all different.

Thanks to the latest e-bikes technology, you devour the kilometres effortlessly.

A unique way to discover the region, weaving your way where cars cannot go. Each participant – at the handlebars of his modern steed – helps search for clues and solve puzzles along the route. An excellent group activity – simple and effective. For a tantalising taste of childhood with a futuristic touch.

Rally of Discovery in the footsteps of the Saint-Tropez gendarme... driving the legendary French car '2 cv'.

By car, 4 of you find your way aided by a road book consisting of several steps.

Several stops are organised in the course of the day, highlighted with fun team activities led by our facilitators. Everything is orchestrated so that everyone has a role to play. Perfect activity for all seasons!

Venue Explorer :

The hotel and its close surroundings are transformed into a gaming zone by means of touch tablets. The participants, gathered into groups of 5 - 6 people, join forces to tackle together the fun challenges, answer questions, take photos and videos, and collect as many points as possible in the allotted time.

The highlight of the activity: the closing ceremony, during which the photos and videos taken by the teams are shown on the big screen and the awards are presented to the winning team.

OFFER A FUN AND ORIGINAL TEAMBUILDING ACTIVITY!

Playful Teambuilding activities, designed to encourage meetings between participants and to discover the other in a relaxing environment, away from the usual worries of the office.

They allow the participants to get to know each other in a different setting and to create a true atmosphere of team spirit.

An ideal activity for relaxing after a long day of work!

Quiz Show:

Compose the teams (by tables) in advance,

or let us organise the drawing of lots with an initial participatory game, more or less directed as you so desire.

Time to sit down and ... let the Show begin!

Vespa Tour :

'2 Perfection' allows you to discover the most beautiful places in Walloon Brabant at the controls of this Italian legend! This tour of about 3 hours can be started from any spot you choose. The revenge :

**June 1815, the Battle of Waterloo ends.
The victory is for the Allied troops, commanded by the Duke of Wellington and Marshal Blücher, against the Army of the North, led by Emperor Napoleon I.**

200 YEARS LATER ... LET'S REWRITE HISTORY?!

With artillery that you win during certain contests, you are to conquer the 10 historical territories of the Battle of Waterloo. The goal = to reach the 'summit' of the Butte du Lion, before your opponents, in order to plant your victory flag.

**Rifle shooting - observation game - GPS - giant construction - jousts
game of skill - stretcher course - general knowledge ...**

Discover Waterloo :

The battle of Waterloo is considered to be a major historical event that ended the Napoleonic conquest and established the boundaries of the future Europe.

Today, the Waterloo battlefield is one of the largest historical sites in Europe, preserved almost intact. Each year, more than 300,000 visitors from all over the world climb the famous Butte du Lion to admire the extent of the land on which the troops fought so ardently.

At the foot of the Butte du Lion, the underground Memorial allows you to experience one of the most turbulent periods of our history ... as if you were there. Guided by a soldier of your favourite army, you discover the machinery that leads inexorably to the heart of the battle, in a multi-sensory experience unique in Europe! For 15 minutes, you live key moments: life-size, on a 3D screen with a 25-meter panoramic view, in a room filled with special effects!

Waterloo beer is brewed with passion at the Mont-Saint-Jean farm, located on the Waterloo battlefield. The reputation of this historic site – situated astride Waterloo, Plancenoit and Braine-l'Alleud – goes back far beyond the June 18, 1815 combat.

Visit this micro-brewery to discover the secrets of 'the Beer of Bravery'. After the tour, enjoy the selection of beers and cheeses of the region. The site also features a shop dedicated to local products, a museum, and visits to the Garden and the Orchard.

This activity is available ONLY upon reservation.
